

WHY IS HOTEL AKELARRE A SUSTAINABLE ACCOMMODATION?

DECALOGUE OF GOOD SUSTAINABLE PRACTICES:

ENERGY:

1. Optimization of the use of **natural light**.
2. Consuming **100% renewable energy**.
3. We have an **energy-efficient hot water, lighting and air-conditioning system**.

GREEN PURCHASING:

4. We have **green purchasing criteria**, such as the acquisition of **energy and water efficient equipment**.
5. We offer the customer **ecological products**, both food and non-food.

RESIDUES:

6. We **avoid waste generation** by using **water jugs** instead of bottles.
7. We **separate waste** for subsequent recycling. The client has **selective waste separation containers** in the common service area for **packaging, residual waste and organic waste**.

WATER:

8. We control the flow of water from taps and showers **to avoid wasting**.

SUSTAINABLE TRANSPORTATION:

9. We encourage customers to use **sustainable transport**. We have a **charging point for electric vehicles with 2 outlets**.

(*) For more information on the sustainable management of the accommodation, please ask at reception. We have an environmental policy and objectives plan, as well as an annual internal evaluation.
