Our philosophy

At Akelarre Spa, the wellbeing of our guests is essential — and we strive to reflect it in every treatment. That's why we work exclusively with expert manual techniques and advanced high-end cosmetics, carefully selected for their effectiveness, purity and respect for the skin.

Our approach is rooted in exclusivity: unique rituals that combine tradition, innovation and natural elements chosen with intention.

We trust in two brands that share our philosophy of wellbeing: **Valmont**, a symbol of Swiss cellular cosmetics, whose regenerative treatments draw on pure alpine glacier ingredients and the emblematic DNA-RNA complex to effectively combat the signs of ageing; and **Woods Copenhagen**, a Danish brand of clean, conscious skincare whose formulas — made with natural and organic ingredients — strengthen the skin barrier and restore its natural balance.

We invite you to discover experiences designed to care, calm and restore harmony between body and mind.

We look forward to welcoming you,
The Akelarre Spa Team
